

Buenos Aires and the Glaciers National Park

Upsala Glacier

Glaciers National Park is famous for Perito Moreno and Upsala, two of the most visited glaciers in the world. Perito Moreno is an ice river 60 km long that descends to Lago Argentino and is one of only three Patagonian glaciers that are not retreating. Yampu will guide you to the northern tip of Lago Argentino and the Estancia Cristina to visit the breathtaking Upsala Glacier. This glacier is 30 km wide and the largest in all of Patagonia. Prior to the visit to the glaciers, we will spend four days in Buenos Aires, the cosmopolitan city on the southern shore of Rio de la Plata. It is a favored destination for travelers from all over the world.

This trip can be customized to fit your individual travel dates and any specific requests you may have. Your travel consultant will prepare a customized itinerary for you. We offer a choice of 3, 4, 5-star and deluxe hotels. The Deluxe option is with the Alvear Palace or Four Seasons in Buenos Aires, and the Patagonia Park Plaza Hotel in Calafate. We may also take an optional excursion to Chalten or the Torres del Paine National Park in Chile.

This tour includes airfare allowance from London (UK), on non-holiday dates. You do not need to fly via London; Yampu will fly you the most direct way to your city of destination. Depending on your travel dates and proximity of travel, we will quote you the most economical surcharge from your city or country of origin.
